

Lecture Series & Workshops 2019-2021

From Single Organisms to Systems Ecology and Evolution

The scientific conference cycle **SItoSYS** (FNR RESCOM programme) aims to highlight the new and revolutionary microbiology approaches today. Over two years, more than 20 lectures will be presented by renowned international microbiologists.

In principle, the seminars will take place on **every first Wednesday of the month** at the **Maison du Savoir** on the **Belval Campus (room 3.510)** at **12:00**, and will be followed by a meet-greet-and-eat session, and the opportunity for lab visits and further networking in the afternoon.

06 02	2019	Jules Hoffmann
06 03		Barbara Albiger
14 05		3rd LMD
05 06		Joseph Schacherer
03 07		Martin Ackermann
04 09		Chantal Abergel
02 10		to be defined
13 11		Olivia P. Judson
04 12		Homie Razavi
08 01		Julia Vorholt
05 02	2020	Jeroen Raes
04 03		Pascale Cossart
01 04		Nicole Dubilier
May		4th LMD
03 06		Rene Hendriksen
01 07		Julien Godet
02 09		Esther Nolte-t Hoen
07 10		Xavier de Bolle
04 11		Tom Curtis
02 12		Sigrun Smola
06 01	2021	Marion Koopmans
06 02		Roman Stocker
03 03		Michael Wagner
